

## WEATHER FACTS.

WASHINGTON, Dec. 10.—Ohio: Fair weather, slightly warmer.

SPRINGFIELD, O.,  
December 10, 1886.

## HATN'T YOU

Better see the When sealkin

Caps for boys which are being

dealt out at a pretty good jog,

at a dollar each?

## WOULDN'T YOU

As soon go right as wrong in

the purchase of an overcoat to

keep the cold out?

## HASN'T YOUR

Previous-to-our-coming exper-

ience in "close" buying

proved a lesson which will not

soon be forgotten?

## DIDN'T YOU

Pay more and buy worse than,

than our stock and prices are

now?

## THE A B C

Of reasons are these. We

came to you with home-made

clothing; we marked in plain

figures the price for which the

garments were to be sold. We

stuck to the price "like a dog

to a root," knowing full well

that no competition not manu-

facturers could match the

prices without a loss. We in-

troduced the cash rule now

working both ways, (pay in if

it suits, pay out if it don't)

and put a stop, to some ex-

treme, to the foggy practices of

"we'll throw you in this, or

we'll throw you in that" to

effect sales. And today, we

stand head, neck and shoul-

ders above any competitor for

dealing, and 25 per cent. be-

low with prices straight

through the stocks. The

men's clothing, the youth's,

the furnishing goods, the hats

and caps, the bags and satch-

els.

Evidence enough for one

day, that cash buyers should

drive their wares to the

## GROVER HANGED.

The Condemned Man Wishes Everybody

Good Luck and is Then

Swing Off.

Had Fire-Neat Urns—Four Hours

Burned—Grandstand Not in Favor of

the Anti-Revolution Campaign—Thir-

teen Lives Lost.

By the Associated Press.

ST. LOUIS, Dec. 10.—Robert Grover, col-

ored, was hanged in the yard of the jail

at 6:30 this morning. Grover retired at 9

o'clock last night and slept until 5 this

morning, when he was aroused by the

deputy sheriff and partook of a hearty break-

fast. When asked if he had anything to

say, he stepped to the edge of the scaffold

and said: "I wish you all good luck."

The crime for which Grover paid the

penalty was the murder of Berry Evans,

colored, July 6, 1885.

The middle and western states freight

association decided to advance the rate on

all classes of west-bound freight from the

basis of forty-five cents per hundred pounds

on first-class, Pittsburgh to Chicago, to fifty

cents. On the lower classes the advance

will amount to about two cents per one hun-

dred pounds.

A new form of bill of lading was also

adopted, by which the roads are practically

relieved of all risk incident to the trans-

porting traffic, and it is thrown upon ship-

pers.

## DR. DEAD-LINE DABNEY.

He Rushes into Print—Charges Against

Him to be Investigated.

WASHINGTON, Dec. 10.—A good deal of

comment exists in the interior department

over the statements made respecting the

military career of Dr. Dabney, who was

recently appointed a special examiner in

the pension office. It was charged immedi-

ately after the doctor's appointment that

during the war he had served as a confid-

ant guard at the Andersonville prison.

There have been bitter comments upon

the policy of appointing a man who had

stood at the "dead-line" to pass upon the

claims of Union soldiers for pensions. Dr.

Dabney has written a card stating that

at the time he is alleged to have been a

guard at Andersonville he was only four-

teen years of age. This is all the explana-

tion or denial he will make and the most

diligent inquiry fails to secure further in-

formation on the subject.

Dabney is said to have been appointed

from Kansas, but statements from that

disavow any knowledge of his past career

or record. The deputy commissioner of

pensions said today that the charges against

Dr. Dabney would be taken up at once, and

that the commissioner of pensions in-

vested in an investigation for official

misconduct. He said that the matter was

brought to the attention of the bureau

yesterday and they were prepared to ex-

press an opinion at this time. So it seems

that Dr. Dabney's explanation is not com-

pletely satisfactory to the officials respon-

sible for him.

## THE POSTAL TELEGRAPH.

A Move About to be Made by Senator

Edmunds.

WASHINGTON, Dec. 10.—A gentleman

who has recently talked to Senator Ed-

munds about postal telegraphy, says that

that staunch advocate of government con-

trol of a system of telegraph lines in-

tends to begin at the opening of congress

next year. He says that the passage of

the bill on the subject, which will undoubt-

edly be successful. Since the introduction

of his bill in the senate, three or

four years ago, Senator Edmunds has

made extensive research as to the feasi-

bility of a government telegraph system

and the justice to the people such a propo-

sition affords. The most formidable argu-

ment that has been presented against his

bill is that the government has no right

to such matters; that a catering to the

public of this character belongs solely

to private corporations. Senator Ed-

munds has taken an array of illustrations

from other countries, and arguments upon

existing facts in these lines in the United

States, which will completely annihilate

opposition. The impression prevails that

the postal telegraph bill contemplating the

purchase of the construction of a com-

plete system of lines will be passed dur-

ing the first four months of the next ses-

sion of congress.

## DEAD IN IRELAND.

S. B. W. GILL, a Pittsburg Embuizer, Dies

in the City of Belfast.

PITTSBURG, Dec. 10.—Several years ago

S. B. Gill, a prominent attorney of this

city, who was the guardian and trustee for

numerous widows, orphans and others of

various sums of money aggregating over

\$300,000, disappeared. An investigation

into his accounts showed them to be in a

frivolous condition, with not enough funds

left to pay his creditors ten cents on the

dollar. His disappearance was a puzzle

to discover his whereabouts, but without

success. A letter has been received from

Belfast, Ireland, stating that a former

resident of Pittsburg, named Gill, died

November 19. Among his books and effects

were papers bearing the name of Gill. The

deal man is believed to have been Gill.

## JERSEY DUEL.

Somebody is Said to Have Done Some-

thing.

THENTON, N. J., Dec. 10.—A duel is said

to have taken place on the Pennsylvania

side of the Delaware river, opposite this

city, yesterday morning. The principals

were a Trenton druggist and a sporting

man of this city, about a woman. Two

wounds were fired and both were shot.

The informant refuses to give the names.

## BIG BLAZES.

'Square Horse Taylor's Barn Burned—Four

Horses Perish—Loss, \$2,300.

Special to the Globe-Republic.

URBANA, O., Dec. 10.—Square Simon

Taylor's barn, four miles west of this

city, was burned last night. All its con-

tents, consisting of four horses, 600 bushels

of corn, 500 bushels of wheat, twenty tons

of hay and farming utensils, were destroyed.

Loss, \$3,500; insurance, \$1,400.

## GLADSTONE.

He Does Not Approve of the Anti-Rev-

olution Campaign.

LONDON, Dec. 10.—The Glasgow Herald

says it is authorized to state that Glad-

stone does not approve of the anti-revolu-

tionary campaign inaugurated by the Na-

tional League of America. It is

also alleged a letter from Sullivan's wife

in Chicago was received here with the seal

broken. The officials decline to institute

an inquiry unless the envelope which it is

claimed has been tampered with is produced.

Life Boat Lost—Thirteen Persons Drowned.

LONDON, Dec. 10.—A life boat was

wrecked at South Port while endeavoring

to relieve a distressed vessel. Thirteen

persons were drowned.

Accident to President Bartlett.

HANOVER, N. H., Dec. 10.—President

Bartlett, of Dartmouth college, met with

an accident last night, fracturing his right

arm between the elbow and the shoulder.

## CONGRESS.

Second Session—Forty-fourth Congress.

WASHINGTON, Dec. 10.—SENATE—Bills

were introduced as follows:

Authorizing construction of bridge across

Rio river of the North. One to authorize

redemption of trade dollar.

Resolutions referred: Relative to ob-

struction of Columbia river by salmon trol-

ler. After remarks by Senators Morrill, Beck

and Sherman on resolution against any tar-

iff legislation by present congress, the sen-

ate adjourned.

House—Bills passed: Relinquishing in-

terest in certain lands in San Francisco.

Relative to extension of free delivery sys-

tem. Authorizing employment of mail mes-

sengers in the postal service. Provi-

ding for the electoral college. Senate am-

endments to several bills were non-concur-

rent and conferences ordered.

Mr. Dockery, of the committee on post-

office and postroads, offered an amendment

to the bill for extending the free delivery

system so as to make the bill provide that

letter carriers shall be employed for free
